

SANGAMANATH KAMBAR

Full Stack Java Developer | Java Developer | Software Engineer Trainee

Bengaluru, Karnataka, India | +91-9008571351 | sangukambar0@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Aspiring Full Stack Java Developer (B.E. Computer Science, 2026) with hands-on project experience in Java, Spring Boot, Spring MVC, Spring Data JPA, Thymeleaf, MySQL, JDBC, REST APIs, and MVC architecture, including a full-stack Employee Management System with complete CRUD functionality. Solid foundation in Core Java, OOP, JSP, and Servlets, with additional experience building database-driven web applications using Oracle Database. Completed a Software Development internship at KodNest Technologies within Agile sprints. Proficient in Git/GitHub, and currently deepening expertise in Spring/Spring Boot and Hibernate. Seeking a full-time Java Developer / Software Engineer role.

TECHNICAL SKILLS

- **Languages:** Java, SQL, JavaScript
- **Frameworks / Backend:** Spring, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, JSP, Servlets
- **Frontend:** HTML5, CSS3, JavaScript, Bootstrap 5, Thymeleaf
- **Databases:** MySQL, Oracle Database, JDBC
- **APIs:** RESTful APIs, JSON, AJAX
- **Tools & Platforms:** Git, GitHub, Maven, Eclipse IDE, Apache Tomcat, Postman
- **Core CS Concepts:** OOP, MVC Architecture, Collections Framework, Exception Handling, Data Structures & Algorithms
- **Currently Learning:** Spring, Spring Boot, Spring MVC, Spring Data JPA, Hibernate

PROFESSIONAL EXPERIENCE

Software Development Intern — KodNest Technologies, Bengaluru

Jan 2025 – Mar 2025

- Engineered web application modules using Core Java, HTML5, CSS3, and JavaScript; designed MySQL tables and implemented CRUD operations via JDBC, and integrated RESTful API endpoints using the Fetch API.
- Collaborated with developers and QA engineers in daily standups and code reviews; managed version control using Git/GitHub with feature branching and pull requests across Agile sprints.

PROJECTS

Employee Management System

Tech Stack: Java, Spring Boot, Spring MVC, Spring Data JPA, Thymeleaf, MySQL, Bootstrap 5, Maven, Git, GitHub

- Developed a full-stack Employee Management System using Spring Boot and MVC architecture, implementing complete CRUD operations for employee records via Spring Data JPA with MySQL integration.
- Followed layered architecture (Controller, Service, Service Impl, Repository, Entity) and designed a Bootstrap 5 dashboard with search, statistics cards, department badges, salary formatting, and edit/delete actions.
- Managed source code using Git and published the complete project on GitHub.

GitHub Repository: [View Repository](#)

Question Paper Generator (QPG)

Tech Stack: Java, JSP, Servlets, JDBC, Oracle Database, HTML, CSS, JavaScript, Apache Tomcat, iText PDF Library

- Engineered a full-stack Question Paper Generator with modules for subject, question, and paper management, applying MVC architecture with JDBC-based CRUD functionality and iText PDF library integration to auto-generate formatted question papers via a JSP/HTML/CSS admin UI.

GitHub Repository: [View Repository](#)

Hotel Management System

Tech Stack: Java, JSP, Servlets, JDBC, Oracle Database, HTML, CSS, Apache Tomcat

- Developed a full-stack web application automating hotel operations, including room management, bookings, and payment processing, with secure Admin/Customer login modules and Oracle Database integration via JDBC; designed a responsive UI using JSP, HTML, and CSS.

GitHub Repository: [View Repository](#)

Train Ticket Reservation System

Tech Stack: Java, JSP, Servlets, JDBC, Oracle Database, Apache Tomcat, HTML, CSS, JavaScript, Git

- Built a web-based reservation system supporting registration, login, train search, seat availability, fare enquiry, and ticket booking, with admin features to manage train details using MVC architecture and session-based authentication.

GitHub Repository: [View Repository](#)

Weather App

Tech Stack: HTML5, CSS3, JavaScript, Weather API, JSON, Responsive Design

- Built a responsive weather application integrating a third-party Weather API for real-time temperature, humidity, and wind data, with geolocation auto-detection, Dark/Light Mode toggle, and Recent Search History.

EDUCATION

B.E. in Computer Science — Poojya Doddappa Appa Engineering College, Kalaburagi | CGPA: 6.64 | 2026

CERTIFICATIONS

- Generative AI & Deep Learning: Roadmap to a Successful Career — HCL Technologies (Apr 2026)
- Investment Banking Job Simulation — J.P. Morgan, Forage Virtual Experience (May 2026)

ACHIEVEMENTS

- Consistently practiced Java and Data Structures & Algorithms while maintaining active GitHub contributions across multiple full-stack projects.
