SANGAMANATH KAMBAR

Full Stack Java Developer | Java Developer | Software Engineer Trainee
Bengaluru, Karnataka, India | +91-9008571351 | sangukambar0@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Java Full Stack Developer and B.E. Computer Science graduate (2026) with hands-on experience building MVC-based web applications using Spring Boot, Spring Data JPA, JSP, and Servlets with MySQL and Oracle databases. Completed a Full Stack Java Development internship at KodNest Technologies, contributing to backend, database, and REST API integration work in Agile sprints with Git/GitHub workflows.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript
Backend & Frameworks: Spring, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, RESTful APIs, JSP, Servlets
Databases: MySQL, Oracle Database, JDBC
Frontend: HTML5, CSS3, JavaScript, Bootstrap 5, Thymeleaf, AJAX
Tools: Git, GitHub, Maven, Eclipse IDE, Apache Tomcat, Postman, iText PDF
Core Concepts: OOP, MVC Architecture, Data Structures & Algorithms, Collections Framework, Exception Handling, Agile/Scrum

PROFESSIONAL EXPERIENCE

Full Stack Java Development Intern — KodNest Technologies, Bengaluru
Full Stack Java Development with AI — KodNest Campus2 Onsite Internship | Feb 2026 – May 2026

- Developed web application modules using Core Java, HTML5, CSS3, and JavaScript; designed MySQL tables and implemented CRUD operations through JDBC.
- Integrated RESTful API endpoints with the front end using the Fetch API.
- Collaborated with developers and QA engineers through daily standups and code reviews across Agile sprints; managed code in Git/GitHub using feature branching and pull requests.

PROJECTS

Employee Management System | GitHub Repository
Java, Spring Boot, Spring MVC, Spring Data JPA, Thymeleaf, MySQL, Bootstrap 5, Maven, Git

- Developed a Spring Boot employee management application using layered architecture (Controller, Service, Service Impl, Repository, Entity) to separate concerns, implementing CRUD operations with Spring Data JPA and MySQL.
- Designed a Bootstrap 5 dashboard with employee search, statistics cards, department badges, salary formatting, and edit/delete actions; maintained and published the source on GitHub.

Automated Question Paper Generator | GitHub Repository
Java, JSP, Servlets, JDBC, Oracle Database, HTML, CSS, JavaScript, Apache Tomcat, iText PDF

- Engineered a modular MVC web application with subject, question, and paper management modules, using Servlets and JDBC for CRUD operations on Oracle Database.
- Integrated the iText PDF library to automatically generate formatted question papers, delivered through a JSP/HTML/CSS admin interface.

Hotel Management System | GitHub Repository
Java, JSP, Servlets, JDBC, Oracle Database, HTML, CSS, Apache Tomcat

- Developed a Java web application (JSP, Servlets) automating room management, bookings, and payment processing, with separate Admin and Customer login modules.
- Integrated Oracle Database through JDBC and designed a responsive user interface using JSP, HTML, and CSS.

Train Ticket Reservation System | GitHub Repository
Java, JSP, Servlets, JDBC, Oracle Database, Apache Tomcat, HTML, CSS, JavaScript, Git

- Implemented an MVC-based reservation system supporting user registration, login with session-based authentication, train search, seat availability, fare enquiry, and ticket booking.
- Developed admin functionality to manage train details with Oracle Database via JDBC; tracked source code using Git.

EDUCATION

B.E. in Computer Science — Poojya Doddappa Appa Engineering College, Kalaburagi | CGPA: 6.64 | 2026

CERTIFICATIONS

- Generative AI & Deep Learning: Roadmap to a Successful Career — HCL Technologies (Apr 2026)
- Investment Banking Job Simulation — J.P. Morgan, Forage Virtual Experience (May 2026)
